**Central California Power** has been doing business with all phases of industries since 1982. **Central California Power** can and will provide you with the best quality, the best price and the customer service you have come to expect.

**Central California Power** guaranties limited downtime, backed up by a legitimately honored warranty, which is often times scarce in today's Service industries.

**Central California Power** is now your Perkins Dealer and warranty center for all your re-powers on new applications using Tier II & III Perkins and Cat engines.

**Central California Power** is now your Doosan Daewoo Distributor for California Diesel Power Units to 954HP, N/G & Propane 212 to 550HP. Marine Propulsion from 70 to 1200HP.

Central California Power is equipped to prepare and work with Ag, Oil, and Transportations industries for funded programs to help pay for engine and retrofit programs that are now being enforced by Calif. Air Quality Districts.

### Ag & Dairy Farms:

Repairs and overhaul capability; Diesel and Natural Gas Engines, power shift or automatic transmissions in your feed trucks, loaders, tractors, and irrigation pumps. Sales outright, installation, or applying for funded programs. **24 hour emergency call out for any generator problems.** Sales of New Tier II & III Diesel Engines and generators. Complete maintenance contracts and rentals up to 1750 KW. Sales and Service of PTO drive units and PTO generators. Sales of previously owned late model medium duty and HD trucks.
